VI. ACTION REQUIRED OF THE BOARD	23	4
Annex Status of assessed contributions to the UNIDO regular budget		5

Introduction

1. At the time of the seventh session of the General Conference, the Organization faced a very serious financial crisis as a result of significant unpaid assessed contributions, low cash balances and the imminent introduction of the staff separation programme mandated by Member States to achieve budget reductions of 20 per cent in 1998-1999. Decisive action was required to ensure that the Organization remained financially viable.
2. Subsequent to the General Conference, the newly-appointed Director-General immediately introduced stringent cash control measures to reduce operating expenditures and limit the costs of the staff separation programme. These measures, together with the positive response by some Member States to the call for early payment of assessed contributions during the first quarter of 1998, have ensured that the current regular budget and working capital cash balances of the Organization are at relatively satisfactory levels.
3. The continued support of Member States through the timely payment of assessed contributions in full will permit the Organization to implement its programmes in line with the Business Plan and programme and budgets, 1998-1999.

I. REGULAR BUDGET ASSESSED CONTRIBUTIONS

4. The status of assessed contributions to the regular budget as at 31 March 1998 is shown in the annex to the present document. Total outstanding contributions amounted to \$128,897,584 (at an exchange rate of US\$ 1 = AS 12.70), which comprises unpaid 1998 assessed contributions of \$32,170,451 and arrears for the period 1986 to 1997 of \$96,727,133, including the arrears of the United States of America of \$60.25 million.
5. As at 31 March 1998, the collection rate for the 1998 assessed contributions was 50.96 per cent. This compares favourably with, and indeed significantly surpasses, the collection rates for the same periods in 1997 and 1996 of 36.15 and 41.64 per cent, respectively. A total of 22 Member States, including two least developed countries, have made full payment of their 1998 assessed contributions. In addition, nine Member States have made partial payments of their 1998 contributions.
6. In accordance with Article 5.2 of the Constitution and financial regulation 5.5(b), as of 31 March 1998, the voting rights of 68 Member States were suspended owing to arrears in payment of assessed contributions, as shown in the annex to the present document. Included in that

group are eight members of the Board and five members of the Programme and Budget Committee.

7. In view of the delays in payment and non-payment of assessed contributions, which constitute a serious hindrance to the implementation of mandated activities, the General Conference in decision GC.7/Dec.10 requested the open-ended discussion group on timely payment of assessed contributions to present concrete recommendations to the Board at its nineteenth session. The Conference also requested the group to examine various options for the recovery of unpaid assessed contributions of the United States of America and to make concrete recommendations to the Board (GC.7/Res.2). The report of the open-ended discussion group is contained in document IDB.19/12.

8. An updated status report as at 15 May 1998 will be issued as a conference room paper.

II. STATUS OF THE WORKING CAPITAL FUND

9. The approved level of the Working Capital Fund was set at \$6,610,000 by the General Conference in decision GC.7/Dec.12. Unpaid advances to the Fund as at 31 March 1998 amounted to \$51,281.
10. The Working Capital Fund is a vital source of cash to meet the Organization's financial commitments when there is insufficient income from assessed contributions due to delays in payment by Member States. This is a particularly important source of funding given that the Organization has no authority to borrow funds from external sources.
11. As a result of the action taken since the General Conference, the Director-General was able, in February 1998, to replenish the Fund to its established level. For the first time since November 1995, the Fund balance is matched by cash resources.

III. CASH FLOW

12. Member States may recall that during the last quarter of 1997, the partial, delayed or non-payment of assessed contributions by some Member States had placed the Organization in a very serious and unprecedented cash crisis. The available cash was barely sufficient to meet the Organization's requirements for one month, and the depleted Working Capital Fund made the situation even more critical. A last-minute payment by a major Member State, however, averted the crisis, but did not solve the problems of a possible future cash-flow crisis.

13. As referred to in the introduction, the Director-General, on assuming office, took immediate action to resolve the financial crisis facing the Organization, particularly through the introduction of cost control measures to reduce financial outflows.

14. Measures taken by the Director-General, as described in the administrative instructions issued during the first quarter of 1998, resulted in lower-than-budgeted cash outflows on all budgetary expenditure items. The outstanding obligations for 1997 have been subject to close scrutiny with a view to ensuring that, wherever possible, financial commitments made in 1997 were reduced or cancelled. As a further measure to preserve cash resources, the distribution of the cash surplus for the biennium 1992-1993 of \$1.2 million was deferred.

15. The combination of these measures, together with the positive trend in the payment of assessed contributions by Member States, has led to a situation where the regular budget and Working Capital Fund cash balances as at 31 March 1998 amount to \$27.1 million. This compares favourably with \$18 million at the same time in 1997.

16. The cash flow under the UNIDO general fund (regular budget and Working Capital Fund) for the first quarter of 1998 is presented in table 1.

Table 1

Cash flow—first quarter, 1998

(In millions of dollars)

Opening balance— 1 January 1998			13.5
Receipts			
Assessed contributions			
- 1997 or prior years	1.9		
- 1998	<u>33.0</u>	34.9	
Other income		<u>1.8</u>	<u>36.7</u>
Disbursements			
Regular budget		11.0	
Separation indemnity		8.3	
1997 obligations		4.9	
Movement in receivables/payables	(1.1)		<u>23.1</u>
Cash balance— 31 March 1998			27.1

IV. FINANCING OF THE STAFF SEPARATION PROGRAMME

17. In authorizing budgetary funding for the staff separation programme, the General Conference, in its decision GC.7/Dec.17, decided to suspend financial regulations 4.2(b) and 4.2(c) with respect to the unutilized balance of appropriations for the 1994-1995 biennium, in the amount of \$13.9 million. The Conference also urged Member States to provide additional cash resources required to finance the staff separation programme: (a) by voluntary contributions from Member States on the understanding that contributions for 1998 for the budget and staff separation reserve would not exceed 1997 assessed contribution levels; (b) by advances to the Organization, on the understanding that those advances would be repaid as and when the arrears of assessed contributions are paid, or deducted from future contributions.

18. During the period December 1997 to March 1998, collections against 1994-1995 assessed contributions amounted to \$2,869,740. The response by Member States to the appeal by the General Conference to provide additional cash resources for the staff separation programme, however, has been disappointing. As at 31 March 1998, one Member State made a loan of \$149,000, which must be repaid by 30 September 1998. Two other Member States advanced part of their 1999 assessed contributions, amounting to \$119,000.

19. Information on the staff separation programme is contained in document IDB.19/9. The cost of the voluntary staff separation programme is estimated to be \$10.8 million to be paid during 1998. As at 31 March 1998, a total amount of \$8.3 million was disbursed/committed for this purpose. Table 2 shows the sources of financing the voluntary staff separation.

Table 2

Sources of financing voluntary separation

(In millions of dollars at US\$ 1 = AS 12.90)

(i) Income from payment of the 1994-1995 outstanding contributions (since December 1997)	2.9
(ii) Previous balance of staff separation indemnity reserve (1996)	1.9
(iii) Cash surplus from the 1992-1993	1.2
(iv) Uncommitted cash balance carried over from 1997	2.3
Total	8.3

Comparable information is given for implementation in the first year of the 1996-1997 biennium.

V. REGULAR BUDGET EXPENDITURE

20. The cost control measures introduced, subsequent to the General Conference, to resolve the cash crisis and place the Organization on a sound financial footing have delayed the financial implementation of the programme and budgets, 1998-1999. The delays in the commitment of budgetary resources also resulted from the inevitable disruption to programme implementation of staff separations and organizational restructuring, which took place during the first quarter of 1998.

21. Table 3 shows expenditure (disbursements and obligations) for the period 1 January to 31 March 1998, as compared to the approved budget (gross) for 1998.

22. The rate of financial implementation is expected to accelerate as assessed contributions are received and programme activities (particularly those related to the

Regular Programme of Technical Cooperation and the Industrial Development Decade for Africa) come on stream.

VI. ACTION REQUIRED OF THE BOARD

23. The Board may wish to take note of the information contained in the present document.

Table 3

Regular budget expenditure
(In millions of dollars)

	1998	1996 (contingency plan)
Regular budget (gross)—total year	79.1	92.1
Expenditure (disbursements/obligations)—first quarter	13.2	26.9
Percentage implementation—first quarter	16.7%	29.3%
