## 导言

本技术合作项目一览表的目的都是为了向成员国的代表以及秘书处提供一份方便的参考材料，不仅可在工业发展理事会和方案预算委员会的届会讨论期间使用，而且可以在全年使用。

本文件提供了各种项目数据，包括项目编号和标题、核准日期、预算和执行情况。执行数字为到 1997 年 12 月 31 日为止的所有开支和承诺额。每个项目的预算数字反映的是该项目的寿命期间预算，而不是报告年度期间的项目预算。一览表按照项目的实施状况分列，即根据项目是 1997 年完成的还是新批准的，或是以往年度项目的继续来分组。

项目按照有关政府和工发组织批准的原来的语文列出，在援助国/地区/领土以及每个国家内部，根据项目编号进行项目分类。本文件还包括区域性、区域间和全球性项目的一览表，也是根据项目编号排列的。对于同一项目有几种资金来源的多边项目，则附有各自的多边项目编号、项目标题及各种资金来源的总额。就一揽子项目而言——例如，捐助国的资助将各种项目都包括在内的那些项目——则只列出单独的项目。

## INTRODUCTION

The purpose of the present list of technical cooperation projects is to provide representatives of Member States, as well as the Secretariat, with a convenient reference not only for use during discussion at the sessions of the Industrial Development Board and Programme and Budget Committee, but throughout the year.

This document provides various project data, including project number and title, approval date, budget and delivery. The delivery figure represents expenditures and commitments incurred through 31 December 1997. Each project budget figure reflects the life-span budget of the project, rather than the budget of the project during the reporting year. The list is broken down by project status, thus grouping projects according to whether they were completed or newly approved in 1997, or are ongoing from previous years.

Projects are listed in their original language, as approved by the Government involved and UNIDO, under the recipient country/area/territory and, within each country, projects are sorted according to their project number. The document also includes listings of regional, interregional and global projects, also according to project number. Multifund projects, where various funding sources exist for the same project, are listed with their respective multiple project numbers, the project title and the total amounts of various funding sources. For umbrella projects — for example those projects where donor financing covers various projects — only the individual projects are listed.

## INTRODUCTION

La présente liste de projets de coopération technique a pour but de mettre à la disposition des représentants des États Membres, ainsi que du Secrétariat, un document de référence commode utilisable à la fois durant les travaux des sessions du Conseil du développement industriel et du Comité des programmes et des budgets et aussi pendant le reste de l'année.

Le présent document fournit divers éléments d'information sur les projets, notamment numéro et titre du projet, date d'approbation, budget et exécution. Le chiffre indiqué pour l'exécution représente les dépenses et engagements de dépenses enregistrés au 31 décembre 1997. Le chiffre indiqué pour le budget de chaque projet correspond au budget pour toute la durée du projet et non au budget du projet pour l'année considérée. Cette liste indique le statut des projets, c'est-à-dire qu'elle distingue entre les projets achevés, les projets nouvellement approuvés en 1997 et les projets d'années antérieures qui se poursuivent.

Les projets sont présentés avec leur titre en langue originale, tel qu'approuvé par le gouvernement concerné et l'ONUDI, et apparaissent sous le pays/la zone/le territoire bénéficiaires; à l'intérieur de chaque pays, les projets sont classés selon leur numéro. Le document présente aussi la liste des projets régionaux, interrégionaux et mondiaux classés également en fonction de leur numéro. Pour les projets à financement multiple pour lesquels interviennent diverses sources de financement, les numéros multiples respectifs, le titre du projet et le montant total des différents financements sont indiqués. Pour les projets-cadres – par exemple quand le financement des donateurs sert à différents projets – seuls les projets individuels sont mentionnés.

## ВВЕДЕНИЕ

Настоящий перечень проектов технического сотрудничества призван служить для представителей государств-членов, а также сотрудников секретариата источником справочной информации, который удобно использовать не только в ходе обсуждений на сессиях Совета по промышленному развитию и Комитета по программным и бюджетным вопросам, но также и в ходе текущей работы в течение всего года.

В этот документ включены различные данные о проектах, в том числе номер и название проекта, дата утверждения, бюджет проекта и показатели осуществления. Показатели осуществления представляют собой данные о произведенных расходах и принятых обязательствах на 31 декабря 1997 года включительно. Данные, касающиеся бюджета каждого проекта, отражают бюджет этого проекта на весь срок его осуществления, а не бюджет соответствующего проекта за отчетный год. В перечне проектов проводится разбивка по состоянию проектов, которые группируются в зависимости от того, были ли они завершены в 1997 году, являются ли новыми проектами, утвержденными в этом году, или же представляют собой проекты, осуществляемые уже в течение нескольких лет.

Названия проектов, включенных в перечень, даются на языке оригинала в том виде, в котором они были утверждены соответствующим правительством и ЮНИДО; эти проекты перечисляются в разделах по соответствующим странам/районам/территориям - получателям, а в рамках каждой страны проекты указываются в порядке, соответствующем их номерам. В настоящий документ также включены списки региональных, межрегиональных и глобальных проектов, которые также указываются в порядке, соответствующем их номерам. В случаях, когда средства на финансирование одного и того же проекта поступают из различных источников, такие проекты, финансируемые из нескольких источников, перечисляются с указанием их соответствующих номеров, названия проекта и общей суммы финансирования из различных источников. Что касается комплексных проектов - например, проектов, в рамках которых доноры финансируют различные отдельные проекты, - то перечисляются только отдельные проекты.

## INTRODUCCIÓN

La finalidad de la presente lista de proyectos de cooperación técnica es facilitar a los Estados Miembros y a la Secretaría una referencia útil y práctica que se podrá consultar no sólo durante los períodos de sesiones de la Junta de Desarrollo Industrial y el Comité de Programa y de Presupuesto sino a lo largo de todo el año.

Se recogen diversos datos sobre los proyectos, tales como su número y título, su fecha de aprobación, su presupuesto y los desembolsos efectuados en cada caso. La cifra correspondiente a los desembolsos representa los gastos efectuados y las obligaciones contraídas hasta el 31 de diciembre de 1997. El monto del presupuesto de cada proyecto corresponde a su duración total y no al presupuesto que se utilizó durante el año considerado. En la lista se han clasificado los proyectos según la fase en que se encuentran, o sea, nuevos proyectos aprobados en 1997, proyectos en curso iniciados en años anteriores y proyectos ya concluidos.

Los proyectos figuran, con su título en el idioma original en que fueron aprobados por el gobierno interesado y la ONUDI, bajo el epígrafe correspondiente al país, zona o territorio receptor y, dentro de cada país, clasificados por orden numérico consecutivo. Se incluyen también los proyectos de ámbito regional, interregional o mundial, clasificados asimismo por orden numérico. Para los proyectos de financiación múltiple, en los que diversas fuentes aportan fondos para el mismo proyecto, se indica el número correspondiente y el título del proyecto y la cantidad total de la financiación aportada. En el caso de los proyectos globales, por ejemplo, aquellos en que los donantes aportan fondos para varios proyectos, sólo figuran los distintos proyectos por separado.
