GENERAL CONFERENCE

Tenth session
Vienna, 1-5 December 2003
Item 10 (b) of the provisional agenda

FINANCIAL SITUATION OF UNIDO

Report by the Director-General

Provides information on the financial situation of UNIDO, including arrears and the amounts due for distribution, as at 30 September 2003, as well as on significant financial developments that have affected the Organization during the biennium.

Annexes		
I. Regular budget performance report for 2002-2003		7
II. Status of assessed contributions to the UNIDO regular budget		9

For reasons of economy, this document has been printed in a limited number. Delegates are kindly requested to bring their copies of documents to meetings.

I. OVERVIEW

1. The financial situation as at 30 September 2003 can be summarized in the following major points:

(a) The overall implementation rate of 79 per cent of the regular budget reflects a slightly higher level than that of the previous biennium (annex I). The rate is expected to increase to 94 per cent by the end of the biennium;

(b) The operational budget recorded a surplus of €0.5 million. This was achieved through a higher-than-budgeted vacancy rate and savings from prior biennium's obligations. The reserve level thus increased from €3.3 million on 1 January 2002 to €3.8 million on 30 September 2003. The level is expected to be approximately €3.6 million by the end of the biennium and hence the biennium is likely to record a surplus of €0.3 million;

(c) The expenditure level for buildings management amounted to 68 per cent of the 2002-2003 appropriations, reflecting an increase as compared with the previous biennium (64 per cent);

(d) The level of regular budget cash resources (including the Working Capital Fund) was €38.5 million. In comparison, the cash balance as at 30 September 2002 and 2001 was €34.6 million and €17.9 million, respectively;

(e) The collection rate of 2003 assessed contributions was 90.3 per cent and was favourable compared to the 2002 and 2001 rates of 89.8 and 62.2 per cent, respectively;

(f) The collection rate of prior years' arrears, as compared to the current year's assessments, was 2 per cent. The collection rates as at 30 September 2002 and 2001, as compared to the assessments of those years, were 4.6 and 16.5 per cent, respectively;

(g) Outstanding assessed contributions amounted to €116.5 million (including arrears of €69.2 million by the United States of America and €2.1 million by the former Yugoslavia). The outstanding amounts as at 30 September 2002 and 2001 were €114.8 million and €132.3 million, respectively;

(h) The Working Capital Fund is at the level of €7,423,030; however, an amount of €101,112 was outstanding as of 30 September 2003;

(i) A total of €1,509,265 from the following sources was credited to eligible Member States when their assessed contributions for the year 2003 were calculated:

• Unencumbered balances of appropriations relating to the bienniums 1992-1993, 1996-1997 and 1998-1999, received by 31 October 2002	€791,258
• Income from new Member States	299,793
• Interest income in excess of budgetary estimates for 2001	<u>418,214</u>
Total	€1,509,265;

(j) A total amount of €4,452,807 from the following sources is due for distribution, unless decided otherwise by the Conference:

• Unencumbered balances of appropriations relating to the bienniums 1992-1993, 1996-1997, 1998-1999, and 2000-2001, including amounts received during the period 1 November 2002 to 31 October 2003 (provisional amount)	€4,376,802
• Income from new Member States	<u>76,005</u>
Total	€4,452,807;

Regarding interest income in excess of budgetary estimates, the next incentive amount is due for distribution in January 2005, i.e. one year after the end of the current biennium.

2. A conference room paper will provide information on the current status of assessed contributions and voting rights, updated to 30 November 2003.

II. REGULAR AND OPERATIONAL BUDGETS

3. The status of the regular and operational budgets, as at 30 September 2003, was as follows:

(a) The status of the regular budget for the period 1 January 2002 to 30 September 2003 is presented in annex I (tables 1 and 2), by major programme and major object of expenditure. The overall implementation rate of 79 per cent of gross budgeted expenditures reflects a slightly higher level than that of the same period of the preceding biennium (78 per cent). The rate of implementation is expected to increase to 94 per cent during the final quarter of the biennium due to accelerated implementation of programmes, particularly in respect of the Industrial Development Decade for Africa. Further payments and other budgetary expenditures relating to conference services and common services will be incurred before the end of the year in connection with the General Conference;

(b) To strengthen the level of the operational budget reserve, operational budget expenditures were contained through maintaining a higher-than-budgeted vacancy factor. As a result of this measure, together with savings of €0.6 million on the prior biennium's obligations, the operational budget recorded a surplus of €0.7 million, which was offset by a loss of exchange of €0.2 million. The reserve level thus increased from €3.3 million on 1 January 2002 to €3.8 million as of 30 September 2003, as shown in table 1. The level for the end of the biennium is expected to be approximately €3.6 million, due to an expected decrease in expenditure in the remaining period of the biennium, as well as additional income due to a change in the payment modality of support cost income under the Montreal Protocol.

Table 1. Operational budget reserve
(Millions of US dollars)

Operational budget reserve as at 1 January 2002	3.3
Savings on liquidation of prior biennium obligations	0.6
Income (1 January 2002 to 30 September 2003)	18.4
<i>Subtotal</i>	22.3
Expenditures (1 January 2002 to 30 September 2003)	(18.3)
Loss on exchange	(0.2)
Operational budget reserve as at 30 September 2003	<u>3.8</u>

(c) The Buildings management budget has been implemented smoothly. Expenditure for the period 1 January 2002 to 30 September 2003 amounted to €25.7 million, representing some 68 per cent of the 2002-2003 appropriations. As compared to this, expenditure for the same period of the previous biennium amounted to 64 per cent of the 2000-2001 appropriations

III. ASSESSED CONTRIBUTIONS

Collections

4. A total of 65 Member States, including 11 least developed countries, have made full payments and 29 Member States have made partial payments of their 2003 assessed contributions. Collections in the year 2003, including applications of overpayments and other adjustments, broken down by List of States, are shown in table 2.

Outstanding contributions

5. Annex II to the present document provides detailed status of assessed contributions outstanding as at 30 September 2003, including the status of voting rights of each Member State, and the minimum payment

required to gain voting rights. Table 3 provides information on outstanding contributions as at 30 September 2003, and on the same date in 2002 and 2001, the latter was revalued for comparison (US\$ to EUR).

* As contained in document IDB.27/11/Rev.1.

IV. VOTING RIGHTS

7. As indicated in annex II, the voting rights of 50 Member States were suspended as at 30 September 2003 in accordance with Article 5.2 of the Constitution and financial regulation 5.5(b). The number of Member States with no voting rights of the various governing bodies is shown in table 5. For comparison, the status as at 30 September 2002 and 2001 is also shown in the table. The improvement of the number of voting rights over the last two bienniums has been reduced notably from 67 in 1999 to 50 in 2003.

Table 5. Suspension of voting rights as at 30 September

	Number of Member States with no voting rights		
	2003	2002	2001
General Conference	50	51	57
Industrial Development Board	1	1	1
Programme and Budget Committee	1	1	1

8. In order to restore voting rights, these Member States must pay a minimum combined amount of €23,722,792 (annex II).

V. IMPLEMENTATION OF RECOMMENDATIONS OF THE GROUP ON TIMELY PAYMENTS

Payment plans

9. Payment plans have been approved and are currently in operation with a duration of ten years for Azerbaijan (€1.3 million, reference IDB.26/Dec.4) and Ukraine (€9.7 million, reference GC.9/Dec.12); five years for Lithuania (€434,241, reference GC.10/11); and three years for Belarus (€452,373, reference GC.10/15). These Member States have made payments as stipulated in their respective payment plans. Negotiations are currently under way with Brazil. Preliminary/informal negotiations are ongoing with a number of other Member States. Concerned Member States have been regularly informed and reminded of their financial obligations and the possibility to settle arrears under payment plans.

10. In this regard, the report of the Committee of Contributions to the General Assembly (sixty-third session, 2-27 June 2003) reaffirmed its earlier conclusion that multi-year payment plans are a useful tool for reducing unpaid assessed contributions and a way for

Member States to demonstrate their commitment to meeting their financial obligations. The Committee had also recommended that, for those Member States that are in a position to submit a payment plan, the Committee and the General Assembly should take the submission of a plan and its status of implementation into account as one factor when considering requests for exemption under Article 19.

Incentives and disincentives to encourage timely payment of assessed contributions

11. Information on incentives/disincentives was provided to the nineteenth session of the Programme and Budget Committee (PBC.19/CRP.2). In addition, annex III to document IDB.27/10 provides information on practices in place in other organizations in the United Nations system as of March 2003, as obtained from the Secretariat of the Chief Executives Board for Coordination. (The Secretariat has received an updated version of this report as of September 2003, however, without noticeable changes on this issue.) In the report of the Committee on Contributions (June 2003) to the General Assembly, under measures to encourage the payment of arrears, it is mentioned, inter alia, among the specific measures that were considered by the Committee at its earlier sessions were: a new assessed fund; crediting only Member States that are current with their financial obligations to the Organization in respect of budgetary surpluses; incentive payments based on the payment status of Member States; restricting access of citizens and companies of Member States in arrears to opportunities for United Nations recruitment and procurement; ineligibility of Member States in arrears for elections to committees and other bodies; interest on or indexation of arrears; and multi-year payment plans. The Committee decided to consider the question of measures to encourage the payment of arrears further at its sixty-fourth session (June 2004) in the light of any guidance from the General Assembly and of updated information from the Secretariat on the related experience of other organizations of the United Nations system and to report thereon to the General Assembly before the end of its fifty-eighth session (September 2004). The Secretariat will follow closely further developments and will inform the governing bodies accordingly.

Arrears by former Member States—United States of America

12. The amounts owed to UNIDO by the United States are as follows:

Assessed contributions, 1994 to 1996	€69,228,235
Income taxes (under the Tax Reimbursement Agreement)	€ 956,753

13. UNIDO has taken up the matter on a number of occasions with the Permanent Representative of the United States of America to the United Nations (Vienna), expressing serious concern that the outstanding amounts have not been settled and requested further to receive an indication as to when payments of these arrears are foreseen. On 24 July 2003, the Permanent Representative informed UNIDO that no specific timeframe can be provided as to when payment of its arrears will be made and that United States legislation does not currently permit the allocation of funds designated for payment of these obligations. Unfortunately, it is currently impossible to predict when a more favourable set of circumstances will arise. However, the United States remains committed to meeting its financial obligations to UNIDO.

Former Yugoslavia

14. The arrears of the former Yugoslavia amount to €2,081,702 for the period 1990-2001. The United Nations General Assembly decided to consider further the question of the outstanding assessed contributions of the former Yugoslavia at its fifty-eighth session. Should any information be received by the Secretariat on this issue, the UNIDO governing bodies will be informed accordingly.

VI. UNENCUMBERED BALANCES OF APPROPRIATIONS AND INCOME FROM NEW MEMBER STATES

Implementation of decision GC.9/Dec.10

15. A summary status of the implementation of decision GC.9/Dec.10 as of 31 October 2003, updating the information reported in documents IDB.26/9 and IDB.27/10, is shown in table 6.

**Table 6. Implementation of decision GC.9/10
Status as at 31 October 2003**

	€
Total amount available	7,195,414
Preference stated by Member States:	
Regular budget	186,481
IDF general-purpose	930,589
IDF special-purpose/integrated programme	2,412,159
Application against assessed contributions	2,840,811
Return or other purpose	176,495
Request/credit upon eligibility	<u>212,422</u>
T o t a l	6,758,957
Amount outstanding (no response to date)	436,457

In decision IDB.26/Dec.3, the Board recommended to the General Conference to allow the Secretariat to use for integrated programmes or country service frameworks each country's share as specified in decision GC.9/Dec.10, if no response has been received by 31 December 2003.

16. As stated in document IDB.27/10, paragraph 21, funds arising from unencumbered balances and income from new Member States were placed in a special account. The status of that account as at 31 October 2003 amounted to \$68,788. Should no other decision be taken by the General Conference, this amount will be transferred to general-purpose IDF funds for the exclusive purpose approved by the General Conference (GC.8/Res.4).

Amount distributed to Member States on 1 January 2003

17. An amount of €791,258, relating to the bienniums 1992-1993, 1996-1997 and 1998-1999 was paid by Member States against outstanding assessed contributions by 31 October 2002. In accordance with financial regulations 4.2(b) and (c), that amount was due for distribution in January 2003 to those Member States that had fully paid their assessed contributions for the respective bienniums and in accordance with their prevailing scale of assessments. Accordingly, credits were given to eligible Member States when the assessed contributions for the year 2003 were calculated.

Amount available for distribution to Member States on 1 January 2004

18. As of 31 October 2003, the unutilized/unencumbered balances of appropriations relating to the bienniums 1992-1993, 1996-1997, 1998-1999 and 2000-2001, provisionally amounts to €4,376,802, broken down as follows:

Biennium	€
1992-1993	73,393
1996-1997	133,912
1998-1999	271,645
2000-2001	3,897,852
Total	4,376,802

19. The above amount will be due for distribution in January 2004, in accordance with financial regulations 4.2(b) and (c), to those Member States that have fully paid their assessed contributions for the above bienniums in accordance with the respective scale of assessment for those bienniums, unless decided otherwise by the Conference.

20. In this connection, reference is made to General Conference resolution GC.8/Res.4 and decision GC.9/Dec.10, which, inter alia, strongly encouraged Member States to renounce their shares of the unencumbered balances of appropriations for the purpose of advancing UNIDO's activities.

Income from new Member States

21. Income received from new Member States amounting to €299,793 was credited to Member States on 1 January 2003.

22. An amount of €76,005 from new Members has been received in 2003. In accordance with financial regulations 4.2 and 5.2(c), this amount is also required to be distributed to Member States on 1 January 2004, unless decided otherwise by the Conference.

VII. ACTION REQUIRED OF THE CONFERENCE

23. The Conference may wish to consider adopting the following draft decision:

“The General Conference:

(a) Takes note of the information provided in document GC.10/12;

(b) Urges those Member States and former Member States that have not yet paid their assessed contributions, including advances to the Working Capital Fund and prior years' arrears, to do so without delay;

(c) Requests the Director-General to pursue his efforts and contacts with Member States to effect the collection of arrears;

(d) Having taken note of the recommendation of the Industrial Development Board in decision IDB.26/Dec.3, decides to allow the Secretariat to use for integrated programmes or country service frameworks each country's share and amount of the unencumbered balances of appropriations, income from New Member States and interest income in excess of budgetary estimates, as specified in decision GC.9/Dec.10, if no response has been received by 31 December 2003 from the concerned States on the use of those funds amounting to €840,818, as contained in annex II to document IDB.26/9 (funds available as of 31 October 2003: €436,457).”
