APPENDICE E

NOMINATIONS D'EXPERTS PAR LISTES D'ÉTATS

En 2012, l'ONUDI a engagé 4 090 consultants et experts. Ce chiffre représente une augmentation de 10 % par rapport à 2011 (3 731) et de 22 % par rapport à la première année de l'exercice biennal précédent 2010 (3 349). Il reflète l'augmentation continue de l'assistance technique fournie par l'ONUDI, qui a progressé de 166,7 millions de dollars des États-Unis fin 2011 à environ 189,2 millions de dollars des États-Unis fin 2012. L'augmentation des recrutements de consultants et d'experts en 2012 est due au recours accru aux experts recrutés sur le plan national.

Il convient également de noter qu'en 2012, l'ONUDI a recruté 63 % de ses consultants et experts dans les États Membres des listes A et C, ce qui représente une augmentation de 1 % par rapport à 2011. La proportion de consultants et d'experts de la liste D a également augmenté de 1 %, tandis que celle des consultants et des experts des États de la liste B a diminué de 2 %.

Elle décrit les aspects essentiels d'un système national de statistiques industrielles, notamment la tenue et la mise à jour du registre des entreprises, les éléments de données pour l'enquête sur les petits et grands établissements, les méthodes de traitement des données et l'analyse de la performance industrielle. |

APPENDICE M

LISTE DES ACTIVITÉS DE COOPÉRATION TECHNIQUE

Introduction

La présente liste des activités de coopération technique de l'ONUDI a pour objet de donner aux représentants des États Membres un outil de référence pratique qu'ils pourront utiliser non seulement pendant les débats lors des sessions des organes directeurs mais aussi lors des consultations menées avec le Secrétariat tout au long de l'année.

Contrairement aux années précédentes, l'appendice fournit, sur les programmes et projets concernés, des informations par pays/zone/territoire et non plus par section, autrefois sections A¹, B² et C³. Cette solution permet d'avoir une vue complète des activités de coopération technique menées au cours de la période à l'étude dans le pays, la zone ou le territoire concerné.

En ce qui concerne les programmes de l'ONUDI, tels que les programmes intégrés, les cadres généraux de services et les programmes de pays, le titre du programme, sa date d'approbation (date de signature du document), le chiffre actuel de planification, le montant total de l'allocation et le montant total utilisé sont indiqués, de même que l'état d'avancement du programme à la fin du mois de décembre 2012. Il convient de noter que, conformément à une décision prise par le Conseil exécutif de l'ONUDI le 23 octobre 2012, un certain nombre de programmes ont été arrêtés et leurs chefs d'équipe ont été priés de faire part de cette décision aux États Membres concernés.

S'agissant des projets qui ne font pas partie du programme de l'ONUDI, l'indicatif du projet, sa date d'approbation (date de publication de l'autorisation des dépenses au titre du projet), le montant total de l'allocation et le montant total utilisé sont fournis. De plus, les projets menés dans un pays, une zone ou un territoire donné sont classés en deux catégories selon qu'ils étaient achevés ou qu'ils étaient encore en cours à la fin du mois de décembre 2012.

Les titres des programmes et des projets sont fournis par pays/zone/territoire bénéficiaire dans la langue d'origine, tels qu'ils ont été approuvés par l'État Membre et l'ONUDI. Chaque allocation correspond au montant total effectivement alloué et disponible pour le programme ou le projet au 31 décembre 2012, et non au montant alloué pendant l'année concernée. Le montant utilisé correspond au total des dépenses effectives et des engagements de dépenses au 31 décembre 2012, et non au montant utilisé pendant l'année concernée. Toutes les sommes d'argent sont exprimées en dollars des États-Unis.

L'appendice contient également des listes de projets régionaux, mondiaux et interrégionaux. Dans le cas des projets bénéficiant de sources de financement multiples, on fournit les indicatifs respectifs de ces projets, leur titre et le montant total des divers financements. S'agissant des projets

¹ La section A donnait un aperçu récapitulatif des programmes intégrés, des cadres généraux de services et des programmes de pays.

² La section B donnait un aperçu des projets exécutés au titre du Protocole de Montréal.

³ La section C présentait tous les autres projets exécutés en dehors des programmes intégrés, des cadres généraux de services et des programmes de pays et ne concernant pas le Protocole de Montréal.

composites – dans le cadre desquels par exemple les donateurs financent plusieurs projets – seuls ces derniers figurent sur la liste.

Il est prévu qu'à l'avenir, les informations sur les activités de coopération technique soient mises à disposition par le biais du progiciel de gestion intégré (PGI) de SAP, en particulier des outils d'information et de suivi. La communication d'informations sur les résultats obtenus au niveau d'un portefeuille de pays sera possible dans le courant de 2013 (voir document IDB.40/5-PBC.28/5, chapitres A et C, et document IDB.41/9-PBC.29/9, par. 16 et 17). L'appendice M cessera par conséquent d'être publié sous sa forme actuelle.
