Message From Head

亲爱的朋友们、伙伴们，

2020年是联合国成立七十五周年，也是实现联合国2030可持续发展议程“行动十年”的起点之年。在“百年未有之大变局”的大背景下，新冠疫情的持续蔓延更是加速了全球价值链的重塑。由数字技术引领的第四次工业革命（4IR）逐渐成为各国应对全球挑战的关键，包容性经济复苏、绿色经济复苏和创新型经济复苏也逐步成为各国实现包容可持续的韧性发展模式，全球技术治理时代来临。

在2020年，联合国工发组织上海投资与技术促进办公室（ITPO上海）致力于整合联合国工发组织及相关国际机构及合作伙伴的全球资源，打造一个汇聚可持续性技术、撬动影响力投资及赋能地方经济转型升级的“投资与技术促进服务平台-卓越中心”。在后疫情时代的产业发展新格局中，积极推动国内外先进制造企业积极参与全球抗疫，探索4IR技术赋能政企研数字化转型路径。

在推动可持续技术的全球化应用方面，我们首创发起了产业技术创新与国际合作（WiiTs）倡议并成立了WiiTs国别顾问团，旨在协同全球产业技术创新者、应用者（特别是中小企业）和技术创新合伙人等共同创建新型合作生态，推动包容可持续的产业发展；在落实联合国工发组织与上海交通大学的全面合作方面，绿色增长联合研究院的正式成立，为可持续性技术的全球化应用提供了实实在在的推动平台；在双向投资促进方面，我们组织和参与了42场对接活动，累计为来自全球25个国家的110个项目提供线上和线下对接服务，促进了国内外36个项目的投资与洽谈，推广了25项技术创新，完成4项技术合作，获得115次海内外主流媒体宣传，通过线上线下活动累计影响2.53亿人次。

2020年，我很荣幸被联合国工发组织总部授予“总干事模范卓越个人奖”，这份荣誉的获得离不开ITPO上海整个团队的全情付出、工发组织总部和ITP全球网络同事们的无私帮助以及ITPO上海全球合作伙伴的大力支持。借此机会，我想对所有支持ITPO上海工作的同事和朋友们表示衷心的感谢！

2021年是ITPO上海成立二十周年，在21世纪的第21年，愿我们继续心怀世界，仰望星空，脚踏实地，为加强地方经济的创新策源功能和赋能高质量的产业发展贡献力量。

Message From Head

Dear Friends and Colleagues,

The year of 2020 marks the 75th Anniversary of the United Nations as well as the starting point for "Decade of Action". While the world is experiencing profound changes unseen in a century, the outbreak of COVID-19 has significantly accelerated the reshaping of the global value chain. Thus UNIDO's strategic priority of Industrial Revolution 4.0 has gradually become the key element for countries to handle global challenges. Moreover, inclusive, green and innovative economic recovery has also attaching increasing importance for countries to realize inclusive and sustainable industrial development. The global technological governance era is around the corner.

In the past year, UNIDO ITPO Shanghai has been committed to integrating the global resources of UNIDO and related international institutions and partners to build an "investment and technology promotion service platform – Center of Excellence", which brings together sustainable technology, leverages impact investing and empowers local economic transformation and upgrading. With the new pattern of industrial development in the post-epidemic era, UNIDO ITPO Shanghai actively connected domestic and foreign advanced manufacturing enterprises to jointly fight against global pandemic, and extensively explored the practical path for 4IR technology to enable digitalized transformation of governments, enterprises and research institutes.

In order to promote the global implementation of sustainable technology, we launched the World Industrial Innovative Technology Cooperations(WIITs) initiative and established the WIITs National Advisory Group, with the aim to collaborate with global technology innovators and technology partners to create a new cooperative ecosystem and promote inclusive and sustainable industrial development. In order to promote the implementation of the comprehensive cooperation between UNIDO and Shanghai Jiao Tong University(SJTU), SJTU-UNIDO Joint Institute of Inclusive and Sustainable Industrial Development(ISID) was established, with the aim to provide a practical promotion platform for the global application of sustainable technologies. In terms of the two-way investment promotion, we organized and participated in 42 events, providing business matchmaking services to 110 projects from 25 countries around the world, promoting 36 projects of investment and 25 technology innovations, completing 4 technology transfers with 115 media coverages from home and abroad and 253 million people engaged through online and offline activities.

At the end of 2020, I am also honored to be awarded the "Director-General's Exemplary Excellence AWARD" in 2020, which is inseparable from the passionate devotion of UNIDO Shanghai ITPO team and generous help of colleagues from UNIDO Headquarters and ITP Global Network, as well as the strong support from our global partners. On behalf of my team, I would like to express our sincere thanks to all the colleagues and friends who have guided and supported UNIDO Shanghai ITPO in the past years.

The year of 2021 marks the 20th anniversary of UNIDO ITPO Shanghai. In the 21st year of the 21st century, may we continue to think globally and act locally. Let's look up at the stars and down to earth, dedicating to strengthening the source function of local economic innovation and empowering high-quality industrial development.

上海ITPO长期致力于搭建先进数字化制造技术领域的政企合作伙伴关系，一方面帮助中国企业在数字化转型过程中提高敏捷响应能力、全球供应链整合能力以及产业生态的更新能力；另一方面促进政企形成合力，有效地将智能制造应用于改善生活质量。

UNIDO ITPO Shanghai is committed to building public-private partnerships in the field of ADP technologies. It works with Chinese enterprises in the process of digital transformation to further improve their agility in responding to changes, and to enhance their capacity to integrate into the global supply chain. It also promotes joint efforts among public and private sectors to effectively leverage the potential of ADP technologies to lift people's standard of living.

新冠疫情爆发初期，武汉急需缓解医疗资源紧张的问题，但由于武汉封城，只允许关键人员和医疗物资进入，无人驾驶配送车还不算是抗疫物资，无法进行运输以及派遣技术工程师进入这座城市。面对这个难题，上海ITPO促进政企形成合力，积极协助北京白犀牛公司将2辆无人驾驶车于2月17日送到武汉光谷方舱医院，不仅帮助避免了交叉感染，也缓解了医护工作压力。

During the early stage of coronavirus outbreak in Wuhan, the city is under urgent need of advanced technologies, but unmanned vehicles were not allowed in due to the lockdown. ITPO Shanghai used its well-established public-private cooperation network to facilitate the process for White Rhino Auto Company to transfer two unmanned vehicles to work at Wuhan's Guanggu Field Hospital, which not only helped avoid cross-infection but also reduced the workload of medical staffs.

在上海ITPO的协助下，另一家合作伙伴CloudMinds在3月初与武汉武昌医院及中国移动合作，开设了一家配备机器人应用物联网技术的“智能方舱医院”，为抗疫做出贡献。

Another ITPO Shanghai partner that provides AI solutions is CloudMinds tech company. In early March, CloudMinds worked with Wuhan Wunchang Hospital and China Mobile to open the "Smart Field Hospital", contributing to the fight against COVID-19 pandemic.

全球技术治理时代已然来临，各国的科技布局愈发以技术创新为主导。与此同时，席卷全球的疫情也正在加速数字化转型步伐。面对后疫情时代的新常态，联合国提出了加强技术合作，共同走向合作共赢的呼吁。联合国工业发展组织（UNIDO）作为致力于促进工业发展的联合国专门机构，对联合国的全球合作呼吁做出了积极回应。联合国工业发展组织总干事李勇倡议：“危中有机，求新求变。UNIDO呼吁全球促进产业调整与转型，推动新技术应用，朝着安全、健康、可持续、包容性发展方向迈进。”

为响应UNIDO总部号召，联合国工发组织上海投资促进中心（UNIDO ITPO Shanghai）作为其全球投资和技术促进网络的一部分，在世界人工智能大会期间与上海交通大学共同发起了“产业创新技术与国际合作倡议”，即World Industrial and Innovative Technology Cooperations (WiiTs)。WiiTs倡议旨在协同全球产业技术创新者、工业制造者、产品全球化应用者、金融服务者和技术合伙人共同创建一个产业技术创新和国际合作生态，推动技术创新与包容可持续发展的产业发展。目前，WiiTs倡议已得到包括瑞典环境科学研究院、中国信通院华东分院、法国索菲亚天使投资网络、英国剑桥创新学院BGTA国际加速器、百度创新中心、动点科技、美国IDEO公司等全球相关方的积极响应。

Technology has becoming gradually important in global governance, and its landscape is increasingly dominated by technological innovation. At the same time, the global outbreak of COVID-19 has impacted the whole world severely and will permanently reshape our world as it continues to unfold. While the fallout from the crisis has amplified multiple risks, change at this scale also accelerates digital transformation. Facing the new normal in the Post-COVID-19 era, the United Nations has called for strengthening technical cooperation and working together towards win-win cooperation. The United Nations Industrial Development Organization (UNIDO), as a United Nations specialized agency dedicated to promoting industrial development, has responded positively to the United Nations' appeal for global cooperation. Mr. Li Yong, Director General of UNIDO, proposed that: "Seeking for light in the dark, striving for the change, UNIDO calls on the world to improve industrial restructuring and transformation, promote the application of new technologies, and move on towards safe, healthy, sustainable and inclusive development."

In response to the call of UNIDO headquarters, the United Nations Industrial Development Organization Investment and Technology Promotion Office Shanghai (UNIDO ITPO Shanghai), as part of its global investment and technology promotion network, jointly launched the initiative "World Industrial and Innovative Technology Cooperations (WiiTs)" during the World Artificial Intelligence Conference, together with Shanghai Jiao Tong University. The WiiTs aims to collaborate with global industrial technology innovators, industrial manufacturers, product globalization users, financial service providers and technology partners to create industrial technology innovation and an international cooperation ecosystem, and promote technological innovation and inclusive and sustainable industrial development. So far, the WiiTs initiative has received positive responses from stakeholders around the world, including Swedish Institute of Environmental Sciences, the East China Branch of Chinese Academy of Information and Communications Technology, the Sophia Angel Investment Network in France, the BGTA and Cambridge Innovation Academy in UK, Baidu Innovation Center, TechNode, IDEO and etc.

1999年，上海启动“聚焦张江”战略，张江高科技园区进入了快速发展阶段。

联合国工业发展组织上海投资促进中心主任赵晓蕾曾在张江工作了17年，长期负责张江高科技园区的投资促进工作。据赵晓蕾回顾，浦东开发开放30年就是一场“开放倒逼改革创新”的大实验。比如说，当时张江想引进生物医药企业，但90年代末的外商投资法规定制药领域对外资不开放，必须合资。

“日本项目麒麟鲲鹏、三共制药、津村制药（汉方药）等，90年代末要进入中国市场，怎么办？找了本土的医药企业合资，但又担心知识产权会有风险。当年我们开发区为了招商引资，抓紧形成医药产业集聚，虽然那时开发公司没有对外投资的主营业务，但特地通过国资委审批流程，愿意出资做合资方，占10%，做‘隐名股东 sleeping partner’，不发言只出钱做好服务，这样一来一方面符合了当时的国家外资政策，另一方面最重要的是项目就能落下来了。”

赵晓蕾告诉《中国经济周刊》记者，像这样“一不小心”从开发商变成投资商，后来发现甜头了，把张江的主营业务做系统地调整，才有了张江在很长一段时间的功能定位：“一体两翼”，即一个开发公司应以开发建设为主体（开发商），一方面做好服务商，另一方面做好投资商的“三商理论”。

2014年，习近平总书记在上海提出了要建设具有全球影响力的科技创新中心。
